## PALSUN® CS Palram Coil End Return Policy

### Shipping Requirements:

## Eliminate disposal fees for used coils! Return coil ends to Palram for credit.

### Requirements:

- Return only reusable coil ends in good condition to receive \$10 credit per coil end.
- Palram will only accept coil ends with our new and improved coil construction (no nails) and identified by the Green Palram logo on the coil end.

### Process to Return Coil Ends:

- When 24 coil ends are accumulated, contact Palram's Shipping Department at: [STF\\_Shipping@palram.com](mailto:STF_Shipping@palram.com) to arrange a pick-up. Palram will not accept a return for quantities less than 24/skid.
- Palram will facilitate and pay for freight.
- Coil ends must be disassembled and stacked flat, with a total of 24 ends per skid. Coil ends must be banded to skid as shown in illustration above.
- Once the coil ends are received, Palram's Shipping Department will confirm the number of reusable coil ends and a credit will be issued (\$10/coil end).
- This applies to all customers in the US & Canada.
