In as much as PALRAM Industries has no control over the use to which others may put the material, it does not guarantee that the same results as those described herein will be obtained. Each user of the material should make his own tests to determine the material’s suitability for his own particular use. Statements concerning possible or suggested uses of the materials described herein are not to be construed as constituting a license under any PALRAM Industries patent covering such use or as removing the burden of an individual user of determining for any patent, whether or not a license is required for the use of such materials in the fabrication of any product. PALRAM Industries cannot be held responsible for any personal injury, property damage, or loss of profit to the user or others caused by incorrect installation of the materials. In accordance with our company policy of continual product development you are advised to check with your local PALRAM Industries supplier to ensure that you have obtained the most up to date information.
